Henry Papin of Burlington was a business visitor in Barre yesterday.  
Clinton Cook of Corinth was a business visitor in Barre yesterday.  
Millinery opening Saturday, Sept. 12. M. M. Minnie, 102 Summer street—adv.  
A. C. Froeborn of Proctor was among the business visitors in Barre yesterday.  
Eugene Whitney of Williamstown was among the business visitors in Barre yesterday.  
The Brook street ball team lost in a fast game against the Plainfield team Monday afternoon at Plainfield.  
Misses Carrie and Gladys Dale of Green street have been spending a two weeks' vacation, camping at Woodbury pond.  
Mr. and Mrs. John Lambert of Burlington are visiting at the home of Mr. and Mrs. Philip Beaulieu of East street.  
Harold White, who has been employed in the Homer Fitts Co. store, is now employed in the office of H. H. Patch & Co.  
Miss Winifred Hamel of the Adams company store visited friends and relatives in White River Junction yesterday.  
Mrs. Myrtle Drennan of Calais and son, Philip, of Woodbury, were business visitors in Barre yesterday, arranging for Philip to attend Goddard seminary.  
Miss Catherine Young of Hill street returned to Boston yesterday to resume, under private teaching, the study of music.  
For the past 10 days Miss Young has been visiting in Barre and vicinity.  
Miss Carrie Calais, who has been visiting friends and relatives in Quincy and Framingham, Mass., has returned, after a two weeks' vacation from her duties in the H. H. Patch & Co. office.  
Edson Lander of Boston is taking a few days' vacation from his work as salesman for the Shredded Wheat company and is visiting at the home of his parents, Mr. and Mrs. George Lander of Washington street.

A bad night for corn roasts, but the Mutt and Jeff club made the most of last evening and enjoyed a corn roast at the home of Thomas Blands on Camp street. Most of the party speak of having spent a very pleasant evening.

Extensive repairs are being made on the rooms at Goddard seminary. About 30 of the floors have been repaired and varnished, including the reception room on the second floor and the dining hall. Many of the rooms have been papered and the contractors are still at work putting the building in shape. Nearly all of the rooms at present have been rented to students. When 50 left the school last spring it did not seem as though the seminary could fill up as it has and make such a large school as is expected this fall. F. E. Heath and M. R. Fadden are doing the repair work on the dormitories.

One of the state motor trucks used on the piece of state road between East Montpelier and Montpelier, which is used to draw granite chips from Barre, was put out of order yesterday, breaking a front drive shaft, when the machine driven by O. H. Telander of Rutland, crawled in the sand to one side of the road into the ditch and there was stalled for several hours. It took two other state trucks to draw the machine from the sand. Mr. Telander leaves to-day for Rutland to get two or three more large, four-wheel drive trucks for state service.

Sporting stores hereabouts are catering to a great many hunters who are laying in a stock of ammunition for the opening of the fall hunting season. Next Monday, Sept. 15, the great squirrel and rabbit hunt will begin to run for life, for it is then that the law is taken off these animals. The bag limit is five in one day for rabbits, and no one is allowed to have more than five in his possession at one time. The gray squirrel regulation is the same as the rabbit. The open season for ducks and geese begins Sept. 16 and ends Jan. 1. Game wardens issue special permits to those hunters who usually set out for partridge, or ruffed grouse. A law was made by the last legislature which prevents the shooting of this bird until after Sept. 15, 1921, as it was feared they were fast becoming extinct. This means that no one shall take a partridge within the next two years. Woodcock may be taken from Oct. 1 to Dec. 1, but not to exceed four in one day or 25 in the season.

A government agent and immigration officer from Boston made an unheralded call on Virginia Laffargo with a warrant for his arrest on the charge of being an anarchist. Mr. Root, the agent, served the warrant Wednesday night and it was a complete surprise to the North Main street printer, employed in the printing establishment of Henry Fasola, known as the Modern Printing company. This warrant was issued in Washington, D. C., on Aug. 12, 1918, and since that time has been lying in the Boston department of labor office, apparently waiting for someone to make a trip in this direction. Laffargo, reputed to be a quiet and peaceable Italian, who has resided in Barre for the past 20 years, working at his trades as a baker and printer, was enjoying the comforts of a home life when the officer appeared and it took some few minutes for him to realize just what the agent was about. Mr. Laffargo sought the counsel of Attorney J. Ward Carver, who, together with the agent, made a thorough investigation of the case. Mr. Root was completely satisfied that Laffargo did not believe in the creed which he was charged with espousing and thought the papers demanded that he be taken to Boston. Mr. Root returned without him, satisfied that he had found the man he sought but that he was a very peaceable and quiet citizen. However, Mr. Laffargo is held under \$1,000 bond, for his appearance in Boston later, if wanted. Antonio Fasola and Orreste Boffino went bail for him. Just how this warrant came to be issued is unknown to any one implicated in the investigation here. Mr. Root believes it resulted from an arrest of an anarchist in this city. He at one time asked Mr. Laffargo if he was an anarchist and was assured that he was. This Mr. Laffargo acknowledged yesterday but when questioned as to the meaning of the word gave a definition entirely different from the usual interpretation. This, together with his political and religious ideas, convinced the agent.

The ladies' union of the Universalist church will hold an adjourned business meeting in the church parlor Wednesday afternoon at 2:30. Note change of date.  
Miss Doris Eastman of Wellington street left this morning for West Haven, Conn., to join her classmate, Miss Christine Hubert, and then proceed to South Hadley, Mass., to continue her studies at Mount Holyoke college.

Miss Hazel Maiden of Keith avenue, who has been working at the Ingleside house at Old Orchard Beach, Me., during the summer months, returned yesterday. Lee Maiden, her brother, who was also employed at the Ingleside, has gone to the White mountains to work for the remainder of the hotel season.  
Sergeant William A. Milne, Jr., son of Mr. and Mrs. William Milne of 10 Maple avenue, arrived at his home last evening for the first time in 29 months.—On April 16, 1917, when he was employed in Des Moines, Ia., he enlisted in the field artillery and was soon after sent to San Francisco, Cal., for a few months' training. He was then assigned to the seventh division coast artillery which for 26 months has been stationed in the Philippine islands. Once during his stay there he had occasion to take a trip to Siberia, acting as a money and prison guard on a U. S. transport. On July 19 he started on his homeward voyage. Twenty-four hours after the boat left the harbor the propeller shaft broke and the ship was then towed to San Francisco by the U. S. supply ship Vestal, which anchored in the California harbor on Aug. 22, just 33 days after the start. In San Francisco the troops were held up for several days on account of a railroad strike, but after a time Sergeant Milne managed to reach Camp Dodge, Ia., and was there discharged a few days afterwards. He expects to remain in this city and follow his trade as a stone-cutter. When residing in Barre before, he was employed by the Harrison Granite company.

### WHITE RIVER JUNCTION

Roy Peck's Automobile Broke Rear Axle of Dr. Goss' Car.

A slight accident occurred on the state fair grounds Wednesday afternoon, about 4 o'clock, when an automobile owned by Roy Peck of Wilder ran into a car belonging to Dr. Goss of Wilder. Mr. Peck, who was alleged to be slightly under the influence of liquor, stalled the motor of his car in front of the ticket office. Without throwing out his clutch, he left the car to crank it, and, of course, as soon as the engine began running again, the car shot forward, knocking Mr. Peck down and finally being brought to a halt by crashing into Dr. Goss' car. Mr. Peck was unhurt, and his car undamaged, but the rear axle of Dr. Goss' car was broken entirely off by the impact. Mr. Peck was arrested immediately and held for a hearing on Thursday, but at that time it was decided to postpone the hearing until a later date.

There will be the usual preaching services at the Universalist church Sunday morning at 11 o'clock. Sunday school at 12 noon.

After further consideration, it was decided to hold the fish exhibit open for the rest of the fair, although owing to the death of so many specimens, the number of fish on exhibit is necessarily small.

Lieut. Lynch, who, with his aeroplane, is giving some splendid and daring exhibitions of aerial feats at the Vermont state fair, had a slight accident Thursday afternoon about 1:30 o'clock, when in landing after a flight with a passenger, his machine did not reach the ground quick enough for him to make a sharp turn, which it is necessary for him to take in order to give him runway enough on the rather short field, which he has to use in ascending and landing. The aeroplane ran into the side of a slight bank at the end of the field, and stalled there with its nose upward. After some little difficulty, Lieut. Lynch and his assistants succeeded in getting the machine off the bank and back into the field on its own power. Practically no damage was done, and the aeroplane resumed its flights in an hour. During the afternoon, Aviator Lynch performed some wonderful feats, such as looping the loop, somersaults, tail spins and other stunts, which held the people watching him spellbound.

Sue, a faithful old horse owned by Dr. Burnett of Hartford, was so badly cut by wire in a pasture, that it was thought best last week to release her from her sufferings. She was a well bred Morgan, 21 years old, and had a long history in the family. On three different times she had saved her master from drowning in the deep waters of the White river—once by swimming while hitched to a sleigh carrying two persons; again by fording. This was when she was 26 years old. At another time she saved her master by swimming through broken ice and surging waters. She was a gift to Dr. and Mrs. Burnett from the doctor's father at the time of his marriage, and was naturally highly prized by both Dr. and Mrs. Burnett.

The Lebanon Chamber of Commerce is arranging for its annual banquet to be held at Hotel Rogers, Lebanon, the latter part of this month. A number of good speakers have been secured for the occasion. Boston talent will furnish the musical part of the program.  
During the vacation of Rev. Frederick J. Buttery, the services at St. Barnabas' church, Norwich, will be under the care of Rev. Richard Bolton of St. Paul's church, White River Junction. Mr. Bolton has recently come from the diocese of Washington to the diocese of Vermont. We bespeak a hearty welcome for him from the church in Norwich. Services on Sundays, Sept. 14, 21, and 28, at 3 o'clock in the afternoon.

Manager Emory Barnes of Hotel Rogers, Lebanon, and Mrs. Barnes, had a narrow escape from a serious accident while returning from the Rutland fair Monday, but the resultant damage was to the machine, which was very badly wrecked. The accident occurred at a curve in the road near the top of Mendon mountain, when they ran head-on into a load of logs, in order to escape a team which was coming in the opposite direction.

The re-dedication of the Congregational church at West Lebanon will be observed this coming Sunday. A most cordial invitation is extended to all to be present at all the services of the day.
